

## How to find your way around from Confins International Airport

At the Tancredo Neves International Airport, in Confins, there is an airport bus service called *Conexão Aeroporto*. The lines go to the City Center – with stops at the Central Bus Station and at Avenida Álvares Cabral.

You can take the bus called *Terminal Rodoviário - Paradora* (Central Bus Station) and you can get off at the stop in front of UFMG or at the city center. Where you get off will depend on the place closest to your accommodation. The ticket costs between 15 and 20 *reais*.

**ATTENTION!** At specific hours, indicated at the ticket booth, the line has a different route to the same destination (city center), but passing by Avenida Cristiano Machado. If you take this route you will NOT be able to get to the university or Aeroporto da Pampulha. Make sure to ask for information when you are buying the ticket.

Another option is to take a taxi or use a rideshare app. The fare route from the International Airport to the city center varies from 80 to 130 *reais* according to conditions. To UFMG, the fare varies from 60 to 110 *reais*.
